

TURP/TURBT

RESECTION ELECTRODES

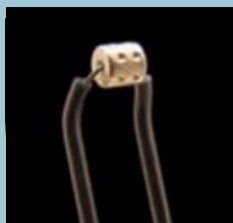

Cutting Loop

Made with the same quality synonymous with Cook. Our tungsten wire cutting loops are hand formed.

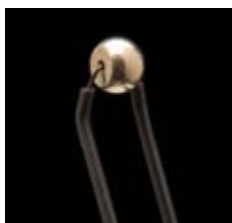

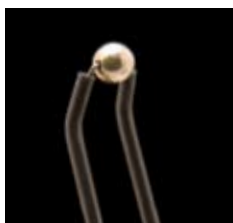

Coagulating Perforated Resector

Produces the chip size of a cutting loop but provides a larger zone of coagulation which reduces intraoperative bleeding.

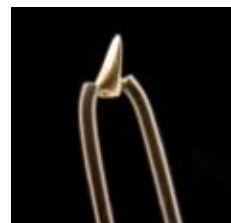

Dimpled Vaporization Roller

Provides a smoother area of vaporization than a grooved roller while simultaneously ablating and coagulating tissue.

Roller Ball and Roller Barrel

Used for coagulation. Cook offers 3 & 5mm roller balls and 3mm roller barrels.

Collings Knife

For access to all areas. Commonly used for ureteral meatotomy and transurethral incision of the prostate (TUIP).

TURP/TURBT

RESECTION ELECTRODES

All products supplied 5 per box.

Engineered
for the only
environment
that matters:
Your patient.

ACMI USA/Elite Resectoscope Compatibility
