

BiWire[®]

NITINOL CORE WIRE GUIDE

Bi-tility

STRAIGHT AT ONE END, ANGLED AT THE OTHER

HIGH LUBRICITY

Hydrophilic coating for effortless advancement

HIGH KINK-RESISTANCE

Nitinol core allows for maximum deflection without kinking

HIGH MANEUVERABILITY

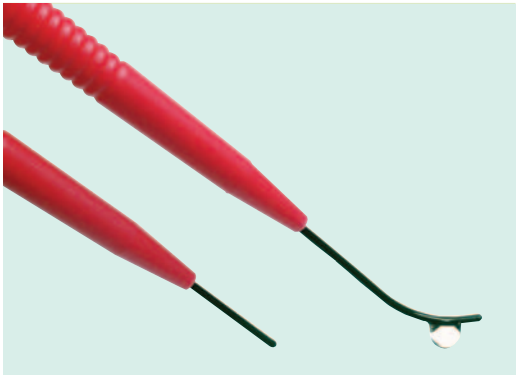

1:1 torque control allows for precise navigation throughout the anatomy

BiWire®

NITINOL CORE WIRE GUIDE

ORDERING INFORMATION

The BiWire is designed to provide two options for ureteral access, no matter how complex the procedure. With flexible tips at both ends, BiWire has the bi-tility of being **straight at one end and angled at the other**. As a result, either end of the wire guide can be used to navigate tortuous ureters. Once in position, the BiWire may be used to facilitate instrument exchange or placement. The BiWire is two wire guides in one, adding value by reducing your inventory needs.

Sold in a box of five (5).

Global Product Number	Order Number	Diameter inch	Length cm	Tip Configuration	Flexible Tip Length cm
Standard Body Wire Guides					
G46142	BW-025150	.025	150	straight and angled tips	3
G46141	BW-035150	.035	150	straight and angled tips	3
G46140	BW-038150	.038	150	straight and angled tips	3
Stiff Body Wire Guides					
G46139	BWS-025150	.025	150	straight and angled tips	3
